Rigorous Cost Management
Accountability and transparency are fundamental operating principles for PSI. Our procurement, travel, and other operational policies are designed to minimize unnecessary costs and to reinforce our commitment to delivering cost-effective outputs.

Leveraging an Extensive Global Network
Being a member of a strong international network with 8,900 social marketing and operational experts in over 60 countries means that we can apply world-leading expertise to our social marketing, finance, HR, and monitoring & evaluation processes. This includes the development of high-quality detailed and regular reports back to our partners.

In the last 6 years, we have reduced our costs per year of healthy life saved by 72% from $201 to $58

“PSI Vietnam’s expertise in managing private-public partnerships is key to the success of our funded programme to distribute low dead space syringes to PWID across the country. In addition, their involvement of the community in the design and implementation of programmes is essential and ensures services are appropriate and client-centered.”
- Elton John AIDS Foundation

“PSI Vietnam is a trustworthy, well-respected, and prestigious NGO in Vietnam, with a very good reputation for working in areas including safe water, sanitation, and hygiene. We found them to be a high impact, ambitious, and energetic partner, with robust monitoring and evaluation reporting framework.”
- Unilever Vietnam

PSI holds itself to the highest level of financial accountability, including annual audits by transparently procured, highly respected, independent financial experts such as Mazars, KPMG, Grant Thornton and Deloitte. These globally recognized institutions have given PSI Vietnam a clean audit for each of the past 11 years, free of any material misstatements.

IN ADDITION, PSI UTILIZES THE FOLLOWING ROBUST AND TRANSPARENT FINANCIAL MANAGEMENT AND RISK REDUCTION CONTROLS:

- Annual external audit by a respected, independent third-party
- Sophisticated accounting and reporting systems compliant with international standards
- Regular in-depth internal audit of all financial and operational controls
- Strict financial management and procurement policies

PSI Vietnam’s behavioral and market-based results have been recognized by multiple, peer-reviewed publications – the gold standard measure of independent verification in academia and public health.
