

Section 1: Census Information

[Interviewer completes this section for all outlets.]

[Interviewer: Before you begin entering information on a form, check that you are at the right outlet and determine whether the outlet is still in business. You will be asked to confirm on the device that the outlet is still in operation and that it could be located before moving on in the questionnaire.]

Once the Outlet ID is entered, other identifying information collected in Round 1 and/or 2 will automatically populate on the device screen for your verification. Confirm details that are correct and change those that are not correct or that have changed. If you are at a sub-outlet that was not interviewed in round 1 or 2, then complete a new form with a new outlet ID. If you need to speak to someone at the outlet to get any of the identification information, then read the introductory script below before asking your questions.]

After the respondent has brought out all methods available, read the following text, then follow the instructions that follow: Thank you. Now I will organize these products by groups and then will begin asking you questions about each one.

1. Different product audit sheets will be used to record the product information based on the form and brand of product. Separate the family planning products into four piles:

- **The first pile should contain one of each brand of all non-drug family planning products available at the outlet including: male and/or female condoms. If CycleBeads and/or diaphragms are available, include in this pile. Use the FP Non-Drug Audit Sheet to record.**
- **The second pile should contain one of each brand of all oral contraceptive tablets available at the outlet including: oral contraceptives and/or emergency contraceptives. If birth control patches or vaginal foaming tablets are available, include in this pile. Use the FP Tablet Audit Sheet to record.**
- **The third pile should contain of one of each brand of all injectable contraceptives available at the outlet. Use the FP Injection Audit Sheet to record.**
- **The fourth pile should contain of one of each brand of all contraceptive implants and IUDs available at the outlet. If vaginal birth control rings are available, include in this pile. Use the FP Insertion Audit Sheet to record.**

2. Number each family planning product brand by assigning a Product Number (starting from 1 for FP Non-Drugs, again from 1 for Tablets and so on).

3. **IMPORTANT- FOR THOSE COMPLETING BY PAPER IN CASE OF MOBILE DEVICE FAILURE:** If additional audit sheets are used, add these sheets after the ones provided and staple the questionnaire again. All pages should be in order before you move onto the next outlet. Number each audit sheet used in the spaces provided at the bottom of the page.

<p>4. Read the following question to the respondent.</p> <p>A1. Do you keep facility-level records of family planning products sold and/or services provided?
